The Lightning is the "cross-over" of touchscreens, providing full size POS features with unsurpassed portability.

- Featuring the Intel Braswell processor, this large screen, all-in-one design reduces foot print and eliminates tangled cables.

- Portability and power backup - Click in battery provides portability whether for remote or uninterrupted operation during power outages.

- The 10-point multi-touch functionality utilizes capacitive technology for extra vivid bright viewing, responsive touch and has a high level of color accuracy.

Technical Specifications subject to change without notice. Please contact PCS before purchasing new equipment. PCS only supports platforms that are supported by Microsoft. Please contact a PCS technical representative for specific configuration options. School districts with no LAN/WAN communication, please contact support to discuss alternative solutions.
